

Preparing the AWS account

To follow this course, it's necessary to create an AWS account. To do that, it's possible to create a free AWS account to have the free tier AWS plan.

1) AWS account:

It's necessary to create an AWS account to follow this course. A good alternative is to use the AWS free tier plan:

<https://aws.amazon.com/free>

To know all the services under this free tier plan and their quotas, please refer to this [link](#), filtering by each AWS resource or service.

Even using the AWS free tier plan, you can be charged by AWS in your credit card, because there are some resources to be used in this course that are not covered by the AWS free tier plan.
